LIST OF CONTENTS

OCTOBER

Editorial Addresses	v	
Steroid Nomenclature	ix	
Claudine Blin, Fabienne L'Horset, Tony Leclerc, Mireille Lambert, Sabine Colnot, Monique Thomasset and Christine Perret	1	Contrasting effects of tamoxifen and ICI 182 780 on estrogen-induced calbindin-D 9k gene expression in the uterus and in primary culture of myometrial cells
Lena Sahlin	9	Dexamethasone attenuates the estradiol-induced increase of IGF-I mRNA in the rat uterus
Naoko Yamada-Mouri, Shuji Hirata, Motoharu Hayashi and Junzo Kato	17	Analysis of the expression and the first exon of aromatase mRNA in monkey brain
Jiro Fujimoto, Satoshi Ichigo, Masashi Hori, Shigeo Morishita and Teruhiko Tamaya	25	Estrogen induces c-*Ha-ras* expression via activation of tyrosine kinase in uterine endometrial fibroblasts and cancer cells
B. Dankbar, M. H. Brinkworth, S. Schlatt, G. F. Weinbauer, E. Nieschlag and J. Gromoll	35	Ubiquitous expression of the androgen receptor and testis-specific expression of the FSH receptor in the cynomolgus monkey (*Macaca fascicularis*) revealed by a ribonuclease protection assay
C. Demonacos, R. Djordjevic-Markovic, N. Tsawdaroglou and C. E. Sekeris	43	The mitochondrion as a primary site of action of glucocorticoids: the interaction of the glucocorticoid receptor with mitochondrial DNA sequences showing partial similarity to the nuclear glucocorticoid responsive elements
Nicole Picard-Hagen, Halima Darbeida and Philippe Durand	57	Glucocorticoids enhance the cholesterol side-chain cleavage activity of ovine adrenocortical mitochondria
Marie-O. Joly-Pharaboz, Marie-C. Soave, Brigitte Nicolas, Farida Mebarki, Mélanie Renaud, Olivier Foury, Yves Morel and Jean G. Andre	67	Androgens inhibit the proliferation of a variant of the human prostate cancer cell line LNCaP
J. Botella, E. Duranti, V. Viader, I. Duc, R. Delansorne and J. Paris	77	Lack of estrogenic potential of progesterone- or 19-nor-progesterone-derived progestins as opposed to testosterone or 19-nor-testosterone derivatives on endometrial Ishikawa cells
Susana Gonzalez, Hector Coirini, Maria Claudia Gonzalez Deniselle, Silvia Gonzalez, Ricardo Calandra and Alejandro F. De Nicola	85	Time-dependent effects of dexamethasone on glutamate binding, ornithine decarboxylase activity and polyamine levels in the transected spinal cord
G. Giannoukos and I. P. Callard	93	Reptilian (*Chrysemys picta*) hepatic progesterone receptors: relationship to plasma steroids and the vitellogenic cycle
G. Barnard, Y. Amir-Zaltsman, S. Lichter, B. Gayer and F. Kohen	107	The measurement of oestrone-3-glucuronide in urine by non-competitive idiometric assay
Ingrid Holmberg Betsholtz and Kjell Wikvall	115	Cytochrome *P*450 CYP27-catalyzed oxidation of C_{27}-steroid into C_{27}-acid
Elzbieta Palonek, Claes Gottlieb, Mats Garle, Ingemar Björkhem and Kjell Carlström	121	Serum and urinary markers of exogenous testosterone administration
W. Kuhnz and B. Löfberg	129	Urinary excretion of 6β-hydroxycortisol in women during treatment with different oral contraceptive formulations
Announcement	I	

NOVEMBER

Christine M. Jewell, Jeffrey C. Webster, Kerry L. Burnstein, Madhadbananda Sar, Jack E. Bodwell and John A. Cidlowski	135	Immunocytochemical analysis of hormone mediated nuclear translocation of wild type and mutant glucocorticoid receptors
J. M. Cates, D. A. Damassa, G. A. Gagin and R. V. Dempsey	147	Hepatic expression of sex hormone-binding globulin associated with the postnatal surge of serum androgen-binding activity in the Djungarian hamster
Laura J. Bloem, Chunlu Guo and J. Howard Pratt	159	Identification of a splice variant of the rat and human mineralocorticoid receptor genes
Steven F. Arnold, John D. Obourn, Howard Jaffe and Angelo C. Notides	163	Phosphorylation of the human estrogen receptor by mitogen-activated protein kinase and casein kinase II: consequence on DNA binding

Lawrence B. Hendry and Virendra B. Mahesh	173	A putative step in steroid hormone action involves insertion of steroid ligands into DNA facilitated by receptor proteins
Paul Y. Sze and Byung H. Yu	185	Glucocorticoid actions on synaptic plasma membranes: modulation of dihydropyridine-sensitive calcium channels
J. Geisler, D. Ekse, S. Hösch and P. E. Lønning	193	Influence of droloxifene (3-hydroxytamoxifen), 40 mg daily, on plasma gonadotrophins, sex hormone binding globulin and estrogen levels in postmenopausal breast cancer patients
Libertad Puy, Neil J. MacLusky, Lawrence Becker, Naznin Karsan, John Trachtenberg and Theodore J. Brown	197	Immunocytochemical detection of androgen receptor in human temporal cortex: characterization and application of polyclonal androgen receptor antibodies in frozen and paraffin-embedded tissues
D. Sömjen, Y. Weisman and A. M. Kaye	211	Pretreatment with $1,25(OH)_2$ vitamin D or $24,25(OH)_2$ vitamin D increases synergistically responsiveness to sex steroids in skeletal-derived cells
Andrew S. Meyer and Thomas J. Schmidt	219	Potential mechanisms underlying autoregulation of glucocorticoid receptor mRNA levels in the DHD/K12/PROb rat colonic adenocarcinoma cell line
E. A. Lien, G. Anker and P. M. Ueland	229	Pharmacokinetics of tamoxifen in premenopausal and postmenopausal women with breast cancer
J. H. Abalain, S. Di Stefano, M. L. Abalain-Colloc and H. H. Floch	233	Cloning, sequencing and expression of *Pseudomonas testosteroni* gene encoding 3α-hydroxysteroid dehydrogenase
William H. Catherino and V. Craig Jordan	239	Nomegestrol acetate, a clinically useful 19-norprogesterone derivative which lacks estrogenic activity
K. Yang, M. Yu and V. K. M. Han	247	Identification and tissue distribution of a novel variant of 11β-hydroxysteroid dehydrogenase 1 transcript
Emma B. Borthwick, Michael W. H. Coughtrie and Ann Burchell	255	Induction of hepatic estrogen sulfotransferase expression by hypophysectomy in female rats
Larry J. Young, John Godwin, Mike Grammer, Manfred Gahr and David Crews	261	Reptilian sex steroid receptors: amplification, sequence and expression analysis
A. Chandrasekaran, M. Osman, J. A. Scatina and S. F. Sisenwine	271	Metabolism of equilin sulfate in the dog
Announcement	I	

DECEMBER

Wenhui Hua, Tracy Christianson, Christian Rougeot, Henri Rochefort and Gail M. Clinton	279	SKOV3 ovarian carcinoma cells have functional estrogen receptor but are growth-resistant to estrogen and antiestrogens
Toushun Jo, Nobuyuki Terada, Yuji Takauchi, Fumitaka Saji, Yasuko Nishizawa, Satonori Tanaka and Hiroaki Kosaka	291	Cytotoxic actions of cytokines on cultured mouse luteal cells are independent of nitric oxide
Marie Bixo, Torbjörn Bäckström, Bengt Winblad and Agneta Andersson	297	Estradiol and testosterone in specific regions of the human female brain in different endocrine states
H. Lahooti, R. White, S. A. Hoare, D. Rahman, D. J. C. Pappin and M. G. Parker	305	Identification of phosphorylation sites in the mouse oestrogen receptor
Stéphane Fabre, Christian Darne, Georges Veyssiere and Claude Jean	315	Characterization of the promoter of the gene for a mouse vas deferens protein related to the aldo-keto reductase superfamily: effect of steroid hormones and phorbol esters
Christopher J. Newton	327	Estrogen receptor blockade by the pure antiestrogen, ZM 182780, induces death of pituitary tumour cells
Gert-Jan C. M. van den Bemd, Huibert A. P. Pols, Jan C. Birkenhäger, Wendy M. C. Kleinekoort and Johannes P. T. M. van Leeuwen	337	Differential effects of 1,25-dihydroxyvitamin D_3-analogs on osteoblast-like cells and on *in vitro* bone resorption
G. Shetty, A. S. Bhatnagar and N. R. Moudgal	347	Blockade of estrogen synthesis with an aromatase inhibitor affects luteal function of the pseudopregnant rat
Chantal Guillemette, Dean W. Hum and Alain Bélanger	355	Specificity of glucuronosyltransferase activity in the human cancer cell line LNCaP, evidence for the presence of at least two glucuronosyltransferase enzymes

P. Diel, A. Walter, K. H. Fritzemeier, Ch. Hegele-Hartung and R. Knauthe — 363 Identification of estrogen regulated genes in Fe33 rat hepatoma cells by differential display polymerase chain reaction and their hormonal regulation in rat liver and uterus

Sylvie Délos, Jean-Louis Carsol, Evelyne Ghazarossian, Jean-Pierre Raynaud and Pierre-Marie Martin — 375 Testosterone metabolism in primary cultures of human prostate epithelial cells and fibroblasts

Carlos M. Tellería, Carlos O. Stocco, Arturo O. Stati, Ana M. Rastrilla, Daniel Carrizo, Luis I. Aguado and Ricardo P. Deis — 385 Dual regulation of luteal progesterone production by androstenedione during spontaneous and RU486-induced luteolysis in pregnant rats

Walter Elger, Sigfrid Schwarz, Annemarie Hedden, Gudrun Reddersen and Birgitt Schneider — 395 Sulfamates of various estrogens are prodrugs with increased systemic and reduced hepatic estrogenicity at oral application

O. Lapčík, R. Hampl, M. Hill and L. Stárka — 405 Plasma levels of epitestosterone from prepuberty to adult life

P. E. Lønning and D. Ekse — 409 A sensitive assay for measurement of plasma estrone sulphate in patients on treatment with aromatase inhibitors

Angela A. I. Daffada and Mitchell Dowsett — 413 Tissue-dependent expression of a novel splice variant of the human oestrogen receptor

W. G. E. J. Schoonen, J. W. H. Joosten and H. J. Kloosterboer — 423 Effects of two classes of progestagens, pregnane and 19-nortestosterone derivatives, on cell growth of human breast tumor cells: I. MCF-7 cell lines

W. G. E. J. Schoonen, J. W. H. Joosten and H. J. Kloosterboer — 439 Effects of two classes of progestagens, pregnane and 19-nortestosterone derivatives, on cell growth of human breast tumor cells: II. T47D cell lines

PROCEEDINGS OF THE WORKSHOP ON THE MOLECULAR AND CELL BIOLOGY OF HYDROXYSTEROID DEHYDROGENASES

Jerzy Adamski and Yvan de Launoit — 445 Introduction

11β-Hydroxysteroid Dehydrogenases: Participation in Hormone Synthesis and Tissue-specific Responsiveness to Glucocorticoids

Jonathan R. Seckl, Rafn Benediktsson, Robbie S. Lindsay and Roger W. Brown — 447 Placental 11β-hydroxysteroid dehydrogenase and the programming of hypertension

Z. Krozowski, A. L. Albiston, V. R. Obeyesekere, R. K. Andrews and R. E. Smith — 457 The human 11β-hydroxysteroid dehydrogenase type II enzyme: comparisons with other species and localization to the distal nephron

Paul M. Stewart, Christopher B. Whorwood and J. Ian Mason — 465 Type 2 11β-hydroxysteroid dehydrogenase in foetal and adult life

Anil K. Agarwal, Fraser M. Rogerson, Tomoatsu Mune and Perrin C. White — 473 Analysis of the human gene encoding the kidney isozyme of 11β-hydroxysteroid dehydrogenase

Regulation of 3β-Hydroxysteroid Dehydrogenases

Fraser M. Rogerson, Jean-Guy LeHoux and J. Ian Mason — 481 Expression and characterization of isoforms of 3β-hydroxysteroid dehydrogenase/$\Delta^{5\rightarrow4}$-isomerase in the hamster

Jacques Simard, Rocio Sanchez, Francine Durocher, Eric Rhéaume, Carl Turgeon, Yvan Labrie, Van Luu-The, Farida Mebarki, Yves Morel, Yvan de Launoit and Fernand Labrie — 489 Structure–function relationships and molecular genetics of the 3β-hydroxysteroid dehydrogenase gene family

N. Cherradi, E. M. Chambaz and G. Defaye — 507 Organization of 3β-hydroxysteroid dehydrogenase/isomerase and cytochrome $P450_{scc}$ into a catalytically active molecular complex in bovine adrenocortical mitochondria

Multiplicity of 17β-Hydroxysteroid Dehydrogenases

Charles H. Blomquist — 515 Kinetic analysis of enzymic activities: prediction of multiple forms of 17β-hydroxysteroid dehydrogenase

Matti Poutanen, Veli Isomaa, Hellevi Peltoketo and Reijo Vihko 525 Role of 17β-hydroxysteroid dehydrogenase type 1 in endocrine and intracrine estradiol biosynthesis

Stefan Andersson 533 Molecular genetics of androgenic 17β-hydroxysteroid dehydrogenases

M. Kaufmann, J. Carstensen, B. Husen and J. Adamski 535 The tissue distribution of porcine 17β-estradiol dehydrogenase and its induction by progesterone

Thierry Normand, Bettina Husen, Frauke Leenders, Hélène Pelczar, Jean-Luc Baert, Agnès Begue, Anne-Claire Flourens, Jerzy Adamski and Yvan de Launoit 541 Molecular characterization of mouse 17β-hydroxysteroid dehydrogenase IV

Functional Aspects of 17β-Estradiol Dehydrogenases

U. Seedorf, T. Engel, G. Assmann, F. Leenders and J. Adamski 549 Intrinsic sterol- and phosphatidylcholine transfer activities of 17β-hydroxysteroid dehydrogenase type IV

Franz Jakob, Dorothee Homann and Jerzy Adamski 555 Expression and regulation of aromatase and 17β-hydroxysteroid dehydrogenase type 4 in human THP 1 leukemia cells

Lorna J. Duncan and M. J. Reed 565 The role and proposed mechanism by which oestradiol 17β-hydroxysteroid dehydrogenase regulates breast tumour oestrogen concentrations

Luigi A. M. Castagnetta, Annalisa M. Montesanti, Orazia M. Granata, Giuseppa Oliveri, Carmela M. G. Sorci, Rosalba Amodio, Maurizio Liquori and Giuseppe Carruba 573 17β-Hydroxysteroid dehydrogenase activity in endometrial cancer cells: different metabolic pathways of estradiol in hormone-responsive and non-responsive intact cells

Van Luu-The, Ying Zhang, Donald Poirier and Fernand Labrie 581 Characteristics of human types 1, 2 and 3 17β-hydroxysteroid dehydrogenase activities: oxidation/reduction and inhibition

Igor Tsigelny and Michael E. Baker 589 Structures important in mammalian 11β- and 17β-hydroxysteroid dehydrogenases

Subcellular Organization of Steroid Metabolism and Synthesis

Peter F. Hall 601 The roles of microfilaments and intermediate filaments in the regulation of steroid synthesis

Walter L. Miller 607 Mitochondrial specificity of the early steps in steroidogenesis

Monika Markus, Bettina Husen and Jerzy Adamski 617 The subcellular localization of 17β-hydroxysteroid dehydrogenase type 4 and its interaction with actin
